

Upixel Environmental Statement

Our responsibility to the environment:

Integrity, dependability and innovation are the standards by which we operate.

We believe that health, safety and environmental wellbeing are compatible with economic health. We have a longstanding commitment to our employees, our customers and our communities to:

- Provide product and manufacturing solutions that help reduce environmental impact
- Only use sustainable materials in product formulation and development
- Eliminate manufacturing waste at our plants

The fact is technology has advanced to a point where we can do the right thing for our planet without compromising on quality and sustainability. So why do it any other way.

Silicone

No "marked harmful effects on organisms in the environment" have been noted for silicones. They are nonbiodegradable but are absorbed by solids in waste water treatment facilities. Degradation is catalyzed by various clays.

Materials

All materials used by Uanyi are environment and human friendly and durable.
